### About NAMI

**Mental illness affects everyone.** Nearly 60 million Americans experience a mental health condition every year. Regardless of race, age, religion or economic status, mental illness impacts the lives of at least one in four adults and one in 10 children across the United States. People living with mental illness need help and hope; they need a community that supports them, their families and their recovery.

*Because mental illness devastates the lives of so many Americans, NAMI works every day to save every life.*

NAMI is the National Alliance on Mental Illness, the nation's largest grassroots mental health organization dedicated to building better lives for the millions of Americans affected by mental illness. NAMI advocates for access to services, treatment, support and research and is steadfast in its commitment to raise awareness and build a community for hope for all of those in need.

NAMI is the foundation for hundreds of NAMI State Organizations, NAMI Affiliates and volunteer leaders who work in local communities across the country to raise awareness and provide essential and free education, advocacy and support group programs.

about

**NAMI Family-to-Family**

*"Family members who take the NAMI Family-to-Family course are better equipped to work with mental health clinicians in a collaborative manner. My bottom-line recommendation? Take this course. It will help you learn to cope successfully with a major challenge in your life, and that, in turn, will help your loved one as he or she works toward recovery."*
